Forecast for Thursday 19 Oct 2023

Weather: Patchy light rain at first, but more persistent rain will arrive from the southeast in the morning. The afternoon and evening will be cloudy with rain, this most persistent and occasionally heavy across northern and eastern Argyll along with southern Lochaber. Drier weather edging north later in the afternoon and through the evening.

Chance of cloud-free hill tops above 800m: 40%, best chance along the Great Glen, and more widely in the southwest in the evening

Low Cloud and visibility: Starting off mostly good but becoing poor or very poor as cloud lowers down to 750 metres across the Trossachs. Low cloud down to 600 to 900 metres soon becoming more widespread through the morning. Low cloud lifting and breaking from the tops in the evening across the southwest of the area.

Freezing Level*	1700m	2700m	2600m	2600m	2700m	2500m	2500m

**Level above which ground is expected to be frozen/snow is expected to settle.*

Met Office Aberdeen Meteorologist's View

Very stormy on the summits with gusts of 80 to 90 mph expected and a high risk of being blown over. Drenching conditions developing in rain along with notable wind chill. Winds will moderate somewhat through the afternoon and evening.

Forecast for Friday 20 Oct 2023

Weather: Outbreaks of rain across the south of the area, this most persistent and heaviest in the morning. Elsewhere more in the way of drier weather but remaining mostly cloudy. Rain will turn to snow above 800 to 1000 metres through the day as colder air edges southwestwards.

Maximum wind: Easterly 70 to 80 mph on the summits, moderating towards evening

Chance of cloud-free hill tops above 800m: 30%, best chance across southern Lochaber and western Argyll

Low Cloud and visibility: Poor in widespread low cloud down to 500 to 800 metres, although only small amounts of cloud expected in the northwest of the area

Temperature: **Glens:** Plus 4 rising to 7 Celsius
At 800m: Plus 4 Celsius falling to 1 Celsius
Freezing level: Above summits falling to 900 metres
